

**MET's Institute of Engineering
Bhujbal Knowledge City Adgaon Nashik
Department of MCA**

The MCA Department have organized **SPARX 2024** on the 20th and 21st of September, 2024, to celebrate **Engineers' Week**. This event was aimed at fostering innovation, creativity, and technical expertise among students. Various competitions were held to engage students in intellectual and interactive activities.

SPARX 2024 was a two-day event filled with enthusiasm, collaboration, and competitive spirit. It provided students a platform to showcase their talents and to network with their peers. The event received a good response from students.

Competitions and Activities

Several competitions were organized as part of **SPARX 2024**, allowing students to participate in various categories. The competitions were designed to challenge their skills, promote teamwork, and encourage learning in a fun environment. One social event was also organized on "Naturopathy and Meditation by Dr. Ashish Nikam (SUDOL Naturopathy & Meditation Center).

Various competitions are as follows:

1. Quiz :

- A technical quiz was conducted, testing students' knowledge of computer science, engineering, and current technologies. Teams of students competed, with rounds focusing on diverse topics, including programming, algorithms, databases, and emerging trends in IT.

2. Poster :

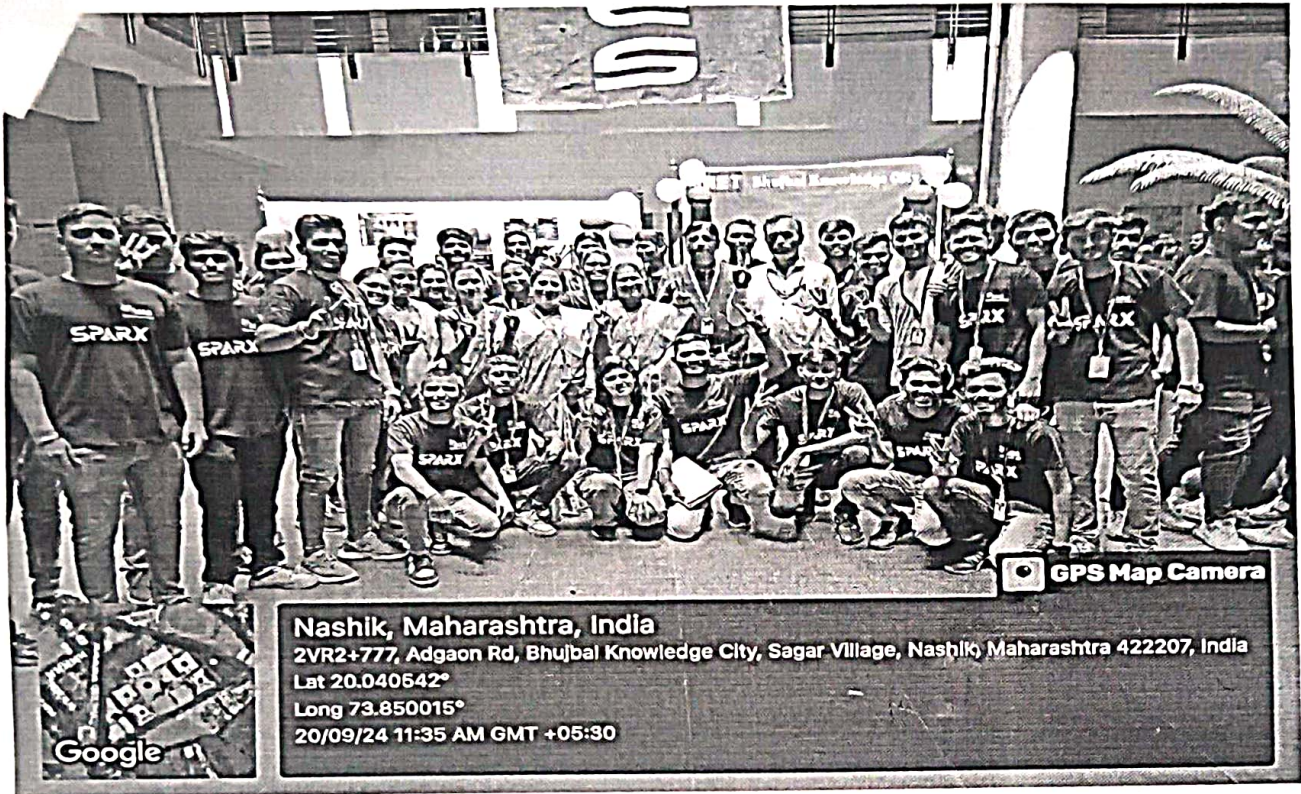

- Students showcased their creativity and understanding of technical concepts through a poster-making competition. The posters reflected the innovative ideas of participants and were judged based on creativity, clarity, and relevance to the themes chosen by the participants. Theme for Poster competition was open for all subjects.

3. Games :

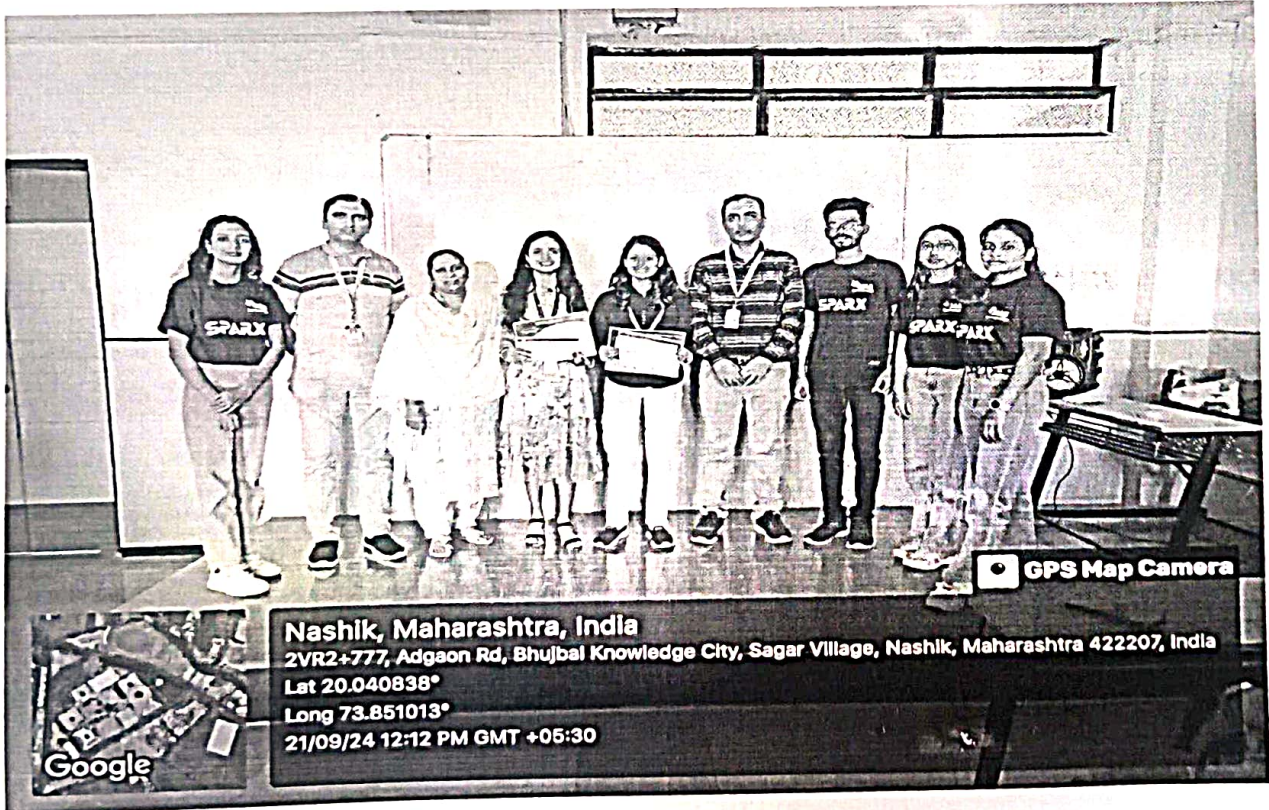

- Various fun and engaging games were organized to allow students to unwind and enjoy themselves. These games were designed to foster team-building and provide a relaxing break from academic pressures.
- The enthusiasm among the participants was evident, with many students showing remarkable creativity and technical skills.
- Faculty members were invited to judge the competitions.

SPARX 2024 was a success, bringing together students from different backgrounds to celebrate **Engineers' Week**. The competitions not only allowed students to display their knowledge and skills but also contributed to building a sense of community and collaboration within the department. The MCA Department plans to continue hosting such events to encourage learning and innovation in the future.
