15. Multidisciplinary / interdisciplinary	
<p>Interdisciplinary courses may be one approach to address such needs, as they can aid in the enhancement of engineering education and the integration of desirable specialised subjects into the current engineering education system. This will enable students to fulfil the current industry demands. Multidisciplinary is become common among engineering fields. Different majors of engineering are combined to execute single projects. Through a multidisciplinary</p>	

approach, a student gains skills problem-solving, critical thinking, time-management, self-management, communication and writing, analysis and research methodologies, team work, and much more. An example of multidisciplinary engineering applications are smart cars, robots, renewable energy systems, drone-based inventory and delivery systems, spacecraft, smart watches, robotic vacuum cleaners, etc.

16.Academic bank of credits (ABC):

Academic Bank of Credits has been established on the lines of the National Academic Depository (NAD), In ABC the students' academic data are held and academic awards are stored i.e. storehouse of academic awards. Despite the fact that ABC enables students to register or commence credit transfer, the final outcomes of credit redemption and issuance of certificates, as well as the compilation of award records, are administered by academic institutions via the NAD Platform. University Grants Commission , New Delhi had issued the instructions to the university for implementation of Academic Bank of Credits. As the directives of the from university and the guidelines provided by the university the students are informed to open their Academic Bank of Credits account and create the ABC ID.

17.Skill development:

The objective is to empower the students with adequate skill sets that will enable their employment in relevant sectors and also improve productivity. The importance of skills development to improve employment, increase productivity.

Training and development initiatives are educational activities within an institute that are planned to improve the placement performance of an individual student or group of students. These programs typically involve advancing a knowledge and skill sets and instilling greater motivation to enhance performance.

At different levels the training programmes are orgnized by each department as the need. The soft skill programmes are orgnized by indivdual department as well as the at institute level by training and placement department.

18.Appropriate integration of Indian Knowledge system (teaching in Indian Language, culture, using online course)

Indian Knowledge Systems (IKS), is about our local context, integration of the cultural-social and the academic dimensions of natural science and technology education. Incorporating IKS for helping students to gain awareness of rich heritage and the

knowledge produced by the Ancient Indians. It helps the students to be proud and connect to their culture and appreciate where they come from. Students continue to uphold their traditions, and maintain the values passed on from generations.

IKS will be incorporated in an accurate and scientific manner throughout the curriculum wherever relevant. The integration of IKS into engineering curriculum including mathematics, astronomy, philosophy, yoga, tribal knowledge and traditional ways of learning will result in an appreciation for the role of science in everyday life

19.Focus on Outcome based education (OBE):Focus on Outcome based education (OBE):

Outcome based education (OBE) is an approach to programme and course design, teaching and learning that is focused on what the students are expected to learn. Outcome based education (OBE) is a process that involves the restructuring of curriculum, assessment and reporting practices in education to reflect the achievement of learning. OBE aims to assess the competences of students in their totality. It takes a holistic approach in describing the competence of a learner in terms of knowledge, skills and values, and assessing competence by using a variety of assessment approaches. OBE offers a framework to learn and deliver the acquired skills. OBE results in increased student academic success.

20.Distance education/online education:

Distant education is now a term for any form of education in which the teacher and student are separated by geographic distance and communication is done via some forms of technology. Distance learning allows students to learn a additional skills. Online classes allow the flexibility to complete coursework. With the rapid development of technology and the Internet, distance education could provide quality learning to students. Distance learning offers possibilities to candidates who want to enhance their skills.

For the students different platforms are made available like NPTEL, MOOC, etc. National Programme on Technology Enhanced Learning (NPTEL) is a quality Indian e-learning platform for university-level science, technology, engineering. Our students are participating and learning

CURRICULAR ASPECTS

1.1 - Curricular Planning and Implementation

1.1.1 - The Institution ensures effective curriculum delivery through a well planned and documented process

The process for effective implement of the Curriculum and continuous monitoring includes the following:

1. Preparation of Academic Calendar: In order to fulfil the program requirements. Academic calendar is prepared by referring University Academic Calendar as a base and guidelines for academic year (Semester I and II) and made available to all on institute's website. The academic calendar includes plan for guest lectures, workshops, seminars, extracurricular, cocurricular activities to be carried out in academic year. IN SEM, END SEM, Practical and Oral examination schedule are also mentioned referring to University Academic Calendar.

2. Workload Distribution and Time Table: The workload distribution is based on the choices given by the respective subject teacher, Time Table Coordinator of respective department prepares department time table containing the schedule for Theory, Practical, Tutorials, NPTEL, Library hours to meet the requirements of University curriculum. A copy of the same is made available to all the faculties and students.

3. Plan and Laboratory Plan: Subject teaching plans and Laboratory

plan is prepared by faculty members and circulated in the classes.

4. • **Student's Feedback:** Feedback from the students is obtained and analyzed periodically to improve the teaching learning process.

1.1.2 - The institution adheres to the academic calendar including for the conduct of Continuous Internal Evaluation (CIE)

In order to fulfil the program requirements. Academic calendar is prepared by referring University Academic Calendar as a base and guidelines for academic year

Institute has adopted the reforms of the University and its directives for implementation in the benefit of students. Major reforms including Credit based evaluation system adopted by the Institute are as follows:

University Assessment: 1: Assessment of University Theory Exam

2: Assessment of University Practical/Oral Exam

3. Student Project Assessment

Internal Assessment:

1: Project submission / evaluation

2: Seminar Presentation

3: Term work Submission

In-Semester Examination is conducted to assess the learning outcome of students. At the end of the course the attainment level of each course is calculated based on the performance of students and feedback given by the students.

The evaluation of students is done through the examinations conducted by the University which sets the question papers and does the assessment also. With revised syllabus, the assessment of

students is done through two examinations viz.

End-semester examination. A practical/Oral examination is conducted by the University in which an external examiner assesses performance of students along with an internal examiner

2.6 - Student Performance and Learning Outcomes

2.6.1 - Teachers and students are aware of the stated Programme and course outcomes of the Programmes offered by the institution.

Students and teachers are well aware of the programme and course outcomes of the programmes. The university structure/syllabus for corresponding year is published and is available to the stake holder for reference on university website as well as institute websites. The course structure is precisely defined and presented to all stake

holders. The Programme outcomes, course objectives, course outcome are well described in the programme structure. To have the uniformity in the implementation of course structure the board of studies of the respective programmes are organizing the syllabus/structure detailing faculty developing programmes. The concern teachers are invited to attend these syllabus detailing faculty developing programmes. The senior faculty from the university affiliated institute or the industry personals are the resource persons for such type of faculty development programmes. The details of discussion and contents of these faculty development programme are circulated to all the concern teachers.

Academic, Personal, Psycho-social and Mentoring system

Type of mentoring: Professional guidance/career advancement/course work specific/laboratory specific/all-round development.

Mentoring System: To resolve the issues of the Students effectively, Group Mentoring System is developed with following vision:

- The Total Strength of the Student of the particular Class to be divided by the faculties available to the Class.
- The particular faculty will be the Mentor for the Concern student and they will be called as Mentee. Henceforth the relationship will be the "Mentor mentee"
- The mentor will conduct the exercise of identifying Strength Weakness of the each mentee of his group.
- Periodical meetings will be conducted with the group on Monthly basis or as and when required by mentor and its minute of the meeting file will be maintained by the Mentor.
- If Mentor find critical case, it will be forwarded for Counseling to the Central Counseling Cell.

INFRASTRUCTURE AND LEARNING RESOURCES

4.1 - Physical Facilities

4.1.1 - The Institution has adequate infrastructure and physical facilities for teaching- learning. viz., classrooms, laboratories, computing equipment etc.

The Institute has adequate infrastructure and physical facilities:

- Sufficient no of class rooms.
- Required Laboratories,
- Seminar Halls
- Central Library

The Library is well equipped with modern facilities resources as well as our Central Library is having so many resources which are available in print like Books, Technical Journals, Standards, Conference Proceedings Theses, Reports as well as electronic form like e-books, e-journals, CD-ROMs, Audio-video cassettes and NPTEL video lectures related to Engineering discipline.

- RO purifier along with water cooler is available at every floor of Institute.
- Adequate number of common rooms, toilet are available.
- Housekeeping facility for regular cleanliness and maintenance.
- Landscaping, gardening, tree plantation for healthy environment
- Ramp facility, Lift facility is available for physical challenged people.
- Power backup facility is available.
- Provisions are made for security and housekeeping services
- Department of physical education sports is established in the Campus to focus on physical fitness of the students. The department is headed by Physical Director along with fitness instructor. Following facilities are available.
