"Voter Awareness "

Date: 05/03/2024

The NSS unit of MET Bhujbal Knowledge City Institute of Engineering organise Voter Awareness Drive - "Vote Your Right!", on 5th March, 2023 to sensitise the masses about the importance of participating in the electoral process in a democratic nation and help them cast an 'enlightened vote' by electing the right candidate, knowing various parameters. It is vital that citizens make use of the power and right to vote to choose a leader who will represent them and their ideas; and contribute their part in shaping the government. Volunteers enthusiastically spread awareness about the importance of the right to vote using Voter ID cards to eligible people in their locality. They made the people understand how even 1 vote can change the future of our country. While there are some who genuinely cast their vote, many people sit back and relax on voting day, and others are cajoled into voting for particular candidates. This event is covered by the Press Trust of India (PTI) national broadcasting agency and going to broadcast on National News channel.

Participant Institutes- Institute of Engineering (IOE 75 Volunteers)

Institute of Engineering (IoE 75 Volunteers)

National Service Scheme (N.S.S.) is a noble experiment in academic expansion. It includes the spirit of voluntary work among the students & teacher though sustained community interaction. It brings our academic institution closer to society. It shows how to combine Knowledge & Action to achieve results which are desirable for community Development.

On 24th Sep. 1969 and on the occasion of 100th birth year of Mahatma Gandhi, the Government of India came with an innovative program for the overall development of the country with the name National Service Scheme. India is the country of villages and farmers and according to Gandhi, the past independence development of India was possible only with the development of villages and villagers or farmers. Gandhi also viewed that youth is the only and biggest mean for any kind of the development and the students from urban India should come forward for urbanization and development of rural India. The huge amount of energy which our young generation possesses can be a crucial power if directed toward the overall development of the Country. These Nobel thoughts inspired Hon. Indira Gandhi and other political leaders and they came out with the National Service Scheme in the year 1969. Since its establishment, NSS has always served in all possible manners for the development of India.

MET's Institute of Engineering decided to organize the winter special camp of the NSS at Chandori Village, Taluka-Niphad District-Nashik with various objectives like development of the villages, exposure of the village and socioeconomic problems of the rural population to the young students of

college. Awareness against Female basic rights, women empowerment, cleanliness and hygiene, personality development, tree plantation, child education etc.
