About IEEE

IEEE is the world's largest leading professional association for the advancement of technology. IEEE & its members inspire a global community through IEEE's highly cited publications, conferences, and technology standards, professional & educational activities. IEEE offers a wide range of learning, career enhancement and employment opportunities within the engineering sciences, research and other technology area. IEEE's core purpose is to promote technological innovation and excellence for the benefit of humanity. IEEE will be essential to the global technical community and to technical professionals everywhere and universally recognized for the contributions of technology and technical professionals in improving global conditions. IEEE is the world's largest technical professional society. It is designed to serve professional involved in all aspects of the electrical, electronic and computer fields and related areas of science & technology that underlie modern civilization.

Student Branch Vision

To inspire, enable, empower and energize our student members to enhance their technical interests by providing them a platform to show case their skills.

Student Branch Mission

1. To organize the events at college dealing with latest technologies
2. To form more technical domain group to encourage project activity among student members
3. To organize the technical awareness activity for student members.
4. To encourage the students in publishing research papers.
5. To inspire more students to become IEEE members through the membership drive.
