

**MET's Institute of Engineering
Bhujbal Knowledge City, Adgaon, Nashik
Department of First Year Engineering**

Name of the program: Activity "School Connect"

Date: 13/01/2026

Time: 11.00 to 3.00pm

Day: Tuesday

Venue: IOE BKC

Activity Coordinator: Prof. G.H. Borate

Co-Coordinator:
Prof. Sneha Pekhale ,
Prof. Shilpa Mugde,
Prof Shilpa Shinde

No. of Participants: 160

Objectives of the Visit

1. To create awareness about various engineering branches and courses
2. To familiarize students with college infrastructure and facilities
3. To motivate students towards technical education and innovation
4. To provide career guidance and clarify doubts regarding engineering education

As part of the *School Connect* initiative, a campus visit was organized for Upadhey junior college 12th standard students to an **METs Institute of Engineering college Nashik**. The main objective of this visit was to expose students to higher education opportunities, engineering disciplines, campus life, and career prospects in the field of engineering.

The students were warmly welcomed by the faculty of **Department of Engineering Sciences and Mathematics** of the college. The program began with an introductory session delivered by **Dr. Vinod Khairnar** FE Coordinator highlighting the importance of engineering education and the different streams offered by the institution. How the Admission process run is addressed by **Prof. Rajkuvar R.D.** Following the orientation, the students were taken on a guided campus tour. They visited well-equipped laboratories, workshops, classrooms, library, and other important facilities within the campus. Faculty members explained the practical applications of engineering concepts and demonstrated laboratory equipment, which helped students gain a better understanding of how theoretical knowledge is applied in real-world scenarios.

Students were then taken on a guided tour of the campus, which included visits to:

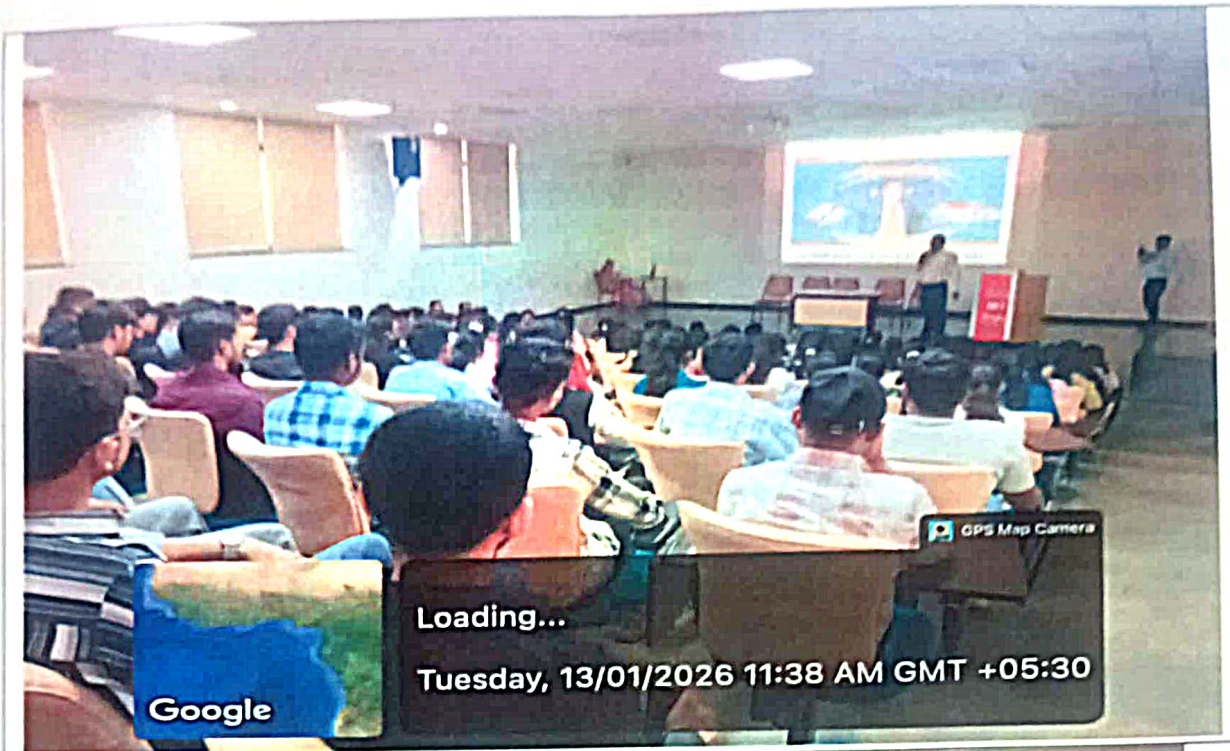

- Academic blocks and classrooms
- Laboratories of various departments
- Library, Sport department and research facilities
- Hostels and other campus amenities

Faculty members explained the practical applications of engineering concepts and demonstrated lab experiments, which generated keen interest among the students. An interactive session was conducted where students asked questions related to admissions, entrance exams, career options, and student life. The visit proved to be highly informative and inspiring for the students. It helped them gain valuable insights into engineering education and assisted them in making informed decisions regarding their future academic paths. The School Connect initiative successfully bridged the gap between school education and professional courses.

Outcomes of the Campus Visit

1. Students gained firsthand exposure to the academic environment and infrastructure of an engineering college.
2. The visit helped students understand various engineering disciplines and the scope of each branch.
3. Students developed awareness about admission procedures, entrance examinations, and eligibility criteria for engineering courses.
4. Interaction with faculty members enhanced students' clarity regarding higher education and career opportunities in engineering.
5. The campus tour and laboratory demonstrations strengthened students' understanding of the practical application of science and mathematics concepts.
6. The visit motivated students to plan their future academic goals with greater confidence.
7. The School Connect initiative successfully bridged the gap between junior college education and professional engineering studies.
