(MET IOM Nasik)

**Objective of Programme-**

Throughout the evening, the audience's energy was electric. Fans were seen head banging, singing along, and clapping in sync with the beat. The interaction between the bands and the audience was one of the defining features of the event, with many performers encouraging crowd participation during their sets

The band **The Chain Reaxion** stole the show with their unique blend of alternative rock and metal, delivering a performance that had the crowd on their feet from start to finish. Their powerful riffs and dynamic vocals were a hit, especially during their popular tracks **The Chain Reaxion** known for their punk rock style, created a rowdy and fun atmosphere with their fast-paced songs and witty stage banter. Their performance was a crowd favorite, with mosh pits erupting and fans chanting along. The visual effects, including stunning light shows and dynamic stage designs, elevated the entire concert experience. The flashing lights, fog machines, and coordinated visuals complemented the music perfectly, creating a full sensory experience for the audience.
