State-Level MET IGNITE-18 Fest: A Resounding Success

The Department of Information Technology at MET's IOE organized the state-level student fest "MET IGNITE-18" in September 2018. The event was held during Engineers Week, and was managed by the IT department's student association, UNITY. Over 301 students from across Maharashtra participated in both technical and non-technical events. The event was a huge success, with technical events like Placement Practices, and non-technical events like Find a Way, PubG, BFF Test, Photo Mania, Win it in Minute and Ball Out. The Placement Practices event was sponsored by the Profound Academy, as well as Softcrowd Technologies, U & Me Coffee & Pizza, and Peoples Tree. The event was judged by eminent individuals, and winners were awarded prizes worth 55,000/-. The organizing committee was led by Prof. Namita R. Kale as the Convener, Prof. Ratan Deokar as the Event Organizer, and Prof. Kishor M. Mahale as the UNITY Coordinator. Mr. Abhishek Talekar & Mr. Hrishikesh Dhangare served as the Student Coordinators, and all the department staff were committee members and Heads for the different events. The event was an excellent platform for students to showcase their skills and talents, and it will be remembered as a memorable experience for everyone involved.

The event provided a unique opportunity for students to engage with their peers and network with industry professionals. Students were able to apply the skills they learned in the classroom to real-world scenarios, and gain valuable experience in their respective fields. The technical events tested the students' knowledge and proficiency in various areas such as coding, networking, and web development. The non-technical events encouraged students to think creatively, work in teams, and develop their leadership skills. The event was not only informative and educational, but also fun and entertaining. The participants had a great time competing with each other, and bonding over their shared passion for technology. The success of "MET IGNITE-18" has inspired the IT department at MET's IOE to continue organizing similar events in the future, and provide students with even more opportunities to learn, grow, and succeed.
