# Mission and Vision of the Department

## • Mission

1. The following are the primary objectives of our program.
2. To equip students with technical education that enables them to apply Information Technology concepts to tackle real-world challenges.
3. To provide exposure to the latest trends in the Information Technology field.
4. To facilitate opportunities in computing and communication technology that foster the personal and intellectual growth of individuals and promote services to society.

## • Vision

- The primary goal is to cultivate skilled professionals who can adeptly tackle the challenges within the Information Technology field through a structured learning system. Additionally, we aim to contribute to the socio-economic growth of society.

# Message from HOD

Information Technology, as we understand it, is the integration of computing with high-speed communication links, through which data, sound, and video are transmitted. The undergraduate program in Information Technology has been developed to foster a comprehensive understanding of fundamental concepts and their practical applications. Its inception was prompted by the increasing demand for skilled IT professionals in the global market.

Dr. S. V. Gumaste

The department's objective is to establish a cutting-edge computing environment that fosters the development of competent computer engineers characterized by professionalism and responsible citizenship. The department wholeheartedly supports the vision of Mumbai Education Trust's Bhujbal Knowledge City (MET-BKC) towards academic excellence. Our highly qualified and dedicated faculty members, coupled with top-of-the-line infrastructure facilities, make this vision achievable.

Our department boasts an impressive array of resources, including a substantial number of personal computers and workstations hosting various software packages such as Oracle, Rational Rose, NET, and SQL Server. The three state-of-the-art laboratories are all fully equipped and are connected through a local area network. Moreover, all the department's PCs have internet connectivity, and the internet server has the appropriate software to ensure secure access.

We, at IT, put in our best efforts to provide practical knowledge regarding IT to our students through different technical activities.

Dr. S. V. Gumaste  
Professor & Head  
Department of Information Technology

## About MET and UNITY Student Association

- **About MET Bhujbal Knowledge City**

The MET League of Colleges is a powerhouse of top-notch educational institutions dedicated to instilling the sharpest skills in students. Born in 1989 with a mission to revolutionize the education system, MET is a well-oiled machine of diverse knowledge and professionalism. It's no surprise they nabbed the ISO 9001:2008 certification, proving they deliver the gold standard of education across the globe.

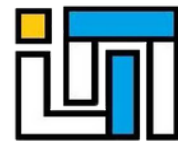

- **UNITY (United IT Youth)**

UNITY - Information Technology Students' Association was an idea, a challenge to create a platform for the students, by the students of the students wherein students would come out of their shells to display their talent, and innovation and help them make a cut above the rest.

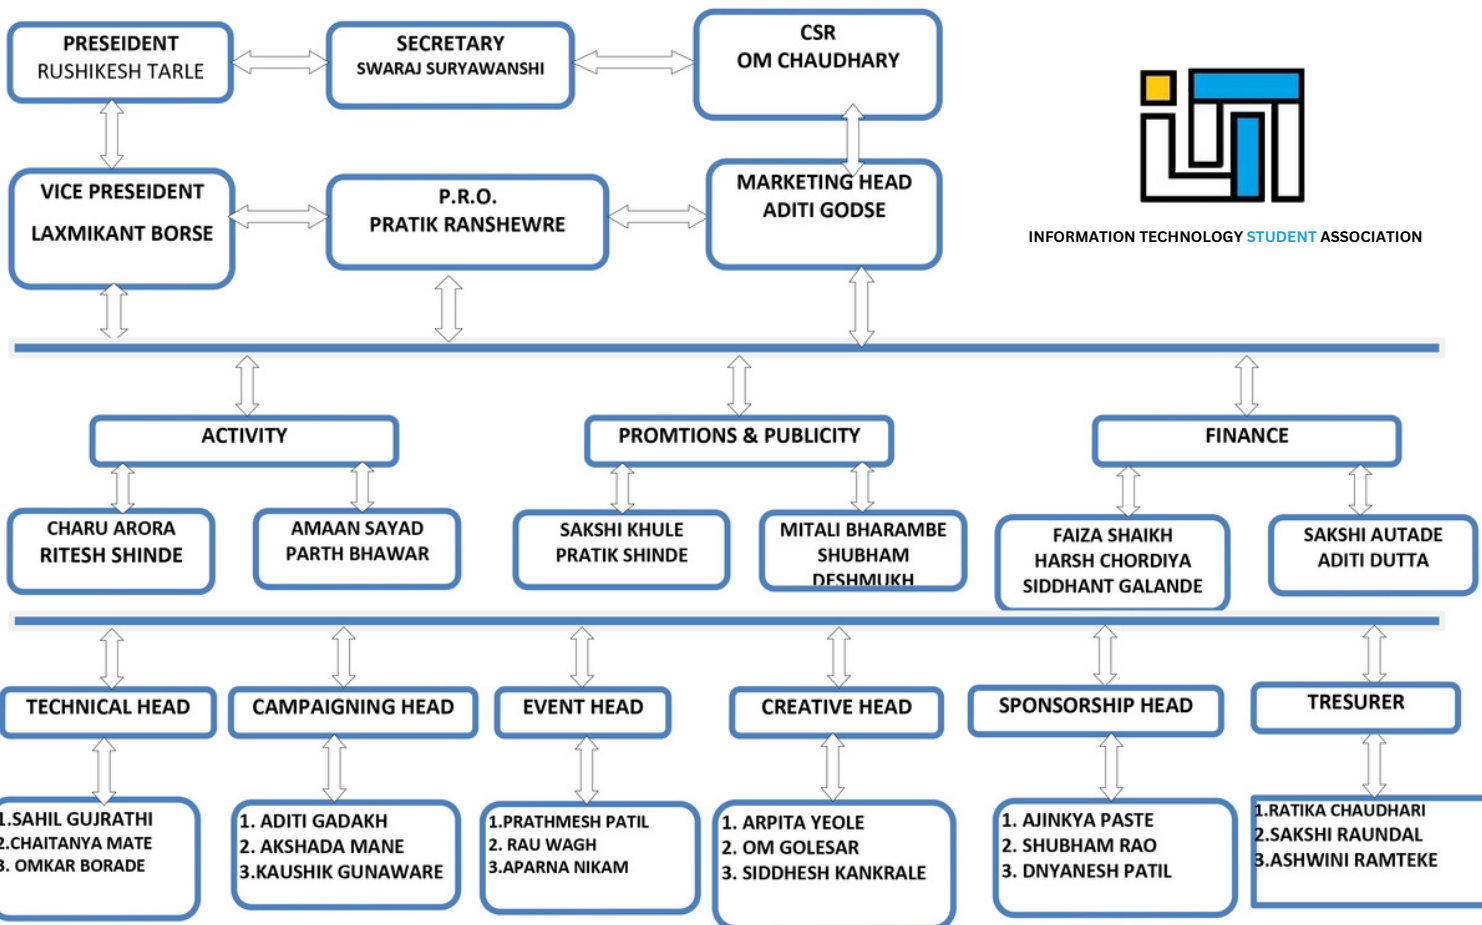

Established on 15th August 2012, UNITY has been creating waves ever since. UNITY is committed to generating, disseminating, and preserving knowledge, and to working with others to bring this knowledge to bear on the world's great challenges

# Association Election Process and Rules

Let's talk about the real MVPs of college life: student associations! These guys play a key role in making sure we have a rockin' campus experience, from organizing epic events to boosting our academic skills. And guess what? We get to choose who leads these associations through the core committee election process! This report is all about how this democratic process keeps our college life dynamic and exciting.

Why are these student associations so important, you ask? They're like the glue that binds us together with the college administration. They make sure our voices are heard and that we have access to all the fun stuff like events, workshops, and seminars. Plus, they give us the perfect platform to show off our leadership skills and passion for our interests.

So, how does this election process work? First up, we have the election commission, made up of faculty members and student reps, who oversee the whole process and make sure everyone plays fair. Then, students who fit the academic requirements can throw their hat in the ring and campaign for their shot at being on the core committee. It's an exciting time, folks!

**To be eligible for Association positions, candidates must meet certain criteria such as maintaining a minimum GPA and having a clean disciplinary record. This ensures that only the most qualified and responsible individuals can compete for the positions.**

**Campaigning is a crucial part of the election process, but we must establish strict guidelines to avoid unethical practices such as defaming opponents, using financial incentives, or breaking college rules.**

**The voting mechanism should be transparent and accessible to all eligible voters, and depending on the college's resources and preferences, can be conducted through traditional paper ballots or electronic voting systems, which can streamline the process and minimize errors.**

**To ensure a fair election, transparency measures should be implemented at every stage, including openly displaying candidate profiles, campaign expenditures, and the final vote count.**

**For those interested in joining the Association, eligibility begins in their second year of college.**

# Event overview

Get ready for some serious knowledge sharing, bonding, and energy because MET Bhujbal Knowledge City in Nashik just nailed an epic Engineer's Week! Hosted by the Institute of Engineering, in partnership with UNITY and IGNITE, this event brought together students for two days of exciting activities and friendly competition. From November 2nd to 3rd, 2023, Nashik was buzzing with camaraderie and creativity, as Engineer's Week showcased the best of student talent. The fun began with a grand opening ceremony that set the tone for an unforgettable week of learning, bonding, and good vibes.

## ***About the Events***

**It was a week to remember! With diverse events that had something for everyone, the crowd was kept on their toes. Six super-charged events had the audience in a frenzy:**

- BGMI Tournament: Gamers battled it out in the wildly popular Battlegrounds Mobile India (BGMI) game, bringing their A-game to the tournament.**
- Cricket Tournament: Cricket buffs flaunted their cricketing skills, with teams going head to head in a nail-biting tournament.**
- Code Runner: Tech geniuses put their programming chops to the test in a coding competition that had everyone on the edge of their seats.**
- Treasure Hunt: A fascinating treasure hunt sent attendees on a scavenger hunt for clues and riddles, leading them on a wild adventure around the campus.**
- Ball Out: This ball shootout contest challenged players to show off their precision and grace on the cricket pitch.**
- Win It in a Minute: This exciting competition put participants to the test with quirky challenges that had to be completed in under a minute.**

**The grand finale was the cherry on top, with the cricket tournament and other finals taking things up a notch. The campus was buzzing with excitement, cheers, and applause as participants gave it their all.**

Fourth year

"Celebrating Engineer's Week 2023 as the president has been an incredible journey. This week has been a testament to the unity, teamwork, and innovation that defines our college community.

I'm immensely grateful for the opportunity to lead alongside passionate individuals who contributed to making Engineer's Week 2023 a remarkable experience. Thank you all for your invaluable contribution to our college community and for helping to make this event an unforgettable success."

Laxmikant Borse

**02**

Third year

"As the Vice President of our Unity Committee in the IT Department, I've displayed strong leadership and communication skills, fostering unity and collaboration. I secured sponsorships for our Ignite event, ensuring its success and supporting our initiatives. During Engineering Week, I managed events and coordinated with student volunteers, particularly excelling as the student coordinator for the Ball Out Event. I'm committed to enhancing our IT community and fostering inclusivity."

**Swaraj Suryawanshi**

**03**

**Third year**

I am the Secretary at Unity'23  
My keen job was to coordinate with each forum such as marketing, creative, etc, and help them with small as well as big details.  
I took vital participation in decorations as well as sponsorship.  
The credibility in Ignite, that too, just in 2 weeks it was a great experience and big milestone for us.  
Looking forward to many more events!  
which will make us more compatible with different situations

**Aditi Godse**

**04**

**Second year**

I am the marketing head at Unity for A.Y 2023-24

As my duties consisted of marketing, gaining sponsors, and campaigning for the Ignite 2023, I had a very interesting experience. All the volunteers appointed with me were very keen and professional with the work.

We, as a team, learned many things from getting rid of our stage fears to putting up our pitches for sponsorships.

It was a very vivid picture to put up this successful event in 2 weeks.

I appreciate each one associated with us in every position,  
Signing off.

**Om Chaudhary**

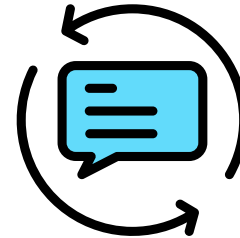

**05**

**Second year**

I am so grateful to be a part of unity. As we conducted ignite as a CSR I got a opportunity to learn many new things which we cannot learn in a classroom.

I was a part of campaigning team which gave me a new experience and new challenges which is gonna be a foundation pillar for my success.

I would like to specially thank my teachers, seniors and my friends who helped me in a many different areas. I've gained a lot of knowledge and value by this role. At the end it was a successful event.

**Kaushik Gunaware**

**06**

**Second year**

It was a great experience as college event teaches you teamwork, management, communication, leadership, and many other skills..

I was a part of campaign team and It was a good opportunity to know how to make people listen to you, believe your vision, and make it become a reality.

I learned a lot about effective communication.

I got to know the importance of guidance from seniors. I built a lot of connections and I am still in contact with them. I learned the importance of marketing in the success of an event.

Overall it was an great experience

**Ayush Kulkarni**

**07**

**Second year**

I had the incredible opportunity to be part of the campaigning team in the recent event, and I can not express how transformative this experience was for me .

From this event, I got an idea about interacting with people , managing and volunteering for the event.

Campaigning in the event not only honed my communication and leadership skills but also taught me the power of unity and collaboration.

I am immensely grateful for this experience and appreciate the efforts taken by the Unity 23 team.

**Keyur Kolhe**

**08**

**Second year**

My role focused on creating eye-catching and engaging promotional materials that effectively conveyed the essence of ignite 2023.

From this event, I got an idea about interacting with people and managing and volunteering for the event.

I appreciate the effort and dedication of the whole UNITY'23 team for organizing this wonderful event.

## Shreya Rakibe

# 09

### Second year

I was under the marketing head doing campaigning and also helped with the online promotion of our event making reels and posts. I also participated in the event “Win it in a minute”.

There was great participation from the students in almost all of our events. I got a stage to showcase my talent so that was great. Also, I learned what exactly goes behind all of the glory that we see in these events. The campaigning itself taught me how to market whatever we are selling and how to convince people and work with a crowd. The event was a great success.

Hopefully we get more such events

## Akashata Kokane

# 10

### Second year

I was under the campaigning and marketing team and we did a lot of work for our successful event held under Engineer's Week by our IT department named IGNITE 2K23. Throughout this campaigning, I gained a lot about how to pitch people, and students to participate in our events and how to convince them for the same. Also, I helped in sponsorship work with our marketing head which was a really great experience. I will like to do more events like this and achieve a great success.

# Conclusion

Bid farewell to the MET Bhujbal Knowledge City Engineer's Week 2023, a week that overflowed with boundless talent, unity, and boundless zeal. The week started with a bang, as the opening ceremony set the stage for a thrilling week of contests, competitions, and skill demonstrations. From the intense BGMI Tournament to the friendly cricket matches, from the coding marathons in Code Runner to the adventurous treasure hunt, and from the precise Ball Out to the wacky "Win It In A Minute," every event showcased the students' incredible abilities.

The week was more than just a series of events; it was a celebration of diversity and unity, a showcase of the exceptional talent and innovation within our college community. It was a time to come together as one, to embrace the engineering spirit that runs through our veins, and to create memories and friendships that will last a lifetime.

Special thanks go to the student association UNITY and the student club IGNITE for their tireless work in organizing and hosting the Engineer's Week. Without their hard work, this grand event would not have been possible.

We also extend our gratitude to our faculty, staff, and administration for their unwavering support and encouragement, fostering our intellectual growth and overall development.

As we wave goodbye to the spectacular Engineer's Week, let's pack up the wisdom, laughs, and lifelong friends we made. Let's keep that team spirit burning bright and aim high in all our future endeavors.

We're tipping our hats to every single person who made Engineer's Week 2023 a roaring success! You rocked it, whether you were a participant, organizer or a supporter. Your presence and input made this event unforgettable.

As we say our goodbyes, let's set our sights on the challenges and victories that lie ahead. With the unity, prowess, and talent we displayed, we're sure to engineer a better tomorrow.

So, as we wrap up Engineer's Week 2023, let's carry the spirit of this epic event in our hearts, motivating us to reach for the stars. Farewell, and until we meet again for the next showcase of brilliance, knowledge, and team spirit – THANK YOU!
