17th August to 21st August 2026

Event Summary

- **Title-** Advancing to Industry 5.0 with Artificial Intelligence
- **Duration** – 17-21 August 2026
- **Target Participants-** Faculty Members from
Engineering, Polytechnic, Pharmacy, MBA and Other Colleges.
- **Resource Person-** Dr. Mala Kalra, Dr. C. Rama Krishna, National Institute of
Technical Teacher Training & Research, Chandigarh (NITTTR)
- **Event Coordinator-** Dr. Priti S. Lahane (Local Coordinator), Prof. H. R. Khairnar

Impact Factor- The FDP helped faculty members understand the tools, technologies, and skillset required to become industry-ready in the era of Industry 5.0 and Artificial Intelligence. The sessions focused on emerging technologies, AI-enabled tools, computational approaches, problem-solving techniques, and technology-supported teaching and learning.

The training also enabled faculty members to update their technical knowledge and integrate modern AI and Industry 5.0 concepts into their teaching, project guidance, and academic activities.

- The FDP activities and learning outcomes were mapped with the relevant **Program Outcomes (POs)** and **Program Specific Outcomes (PSOs)**. The sessions in the program addressed skill test. Two students were awarded as best participant by the trainers. The overall program motivated students to earn skills required for making career AI and ML.
- **PO3 – Design/Development of Solutions:**
The FDP enhanced the ability of faculty members to understand emerging technologies and apply Artificial Intelligence and Industry 5.0 concepts for identifying, analyzing, and developing innovative and industry-oriented solutions to engineering problems.
- **PSO2 – Computational and Programming Skills:**
The training strengthened the understanding of computational tools, AI-based technologies, and programming approaches that can be used to develop **logical thinking, programming skills, computational problem-solving abilities, and practical applications** among students.

**Bhujbal Knowledge City, Adgaon, Nashik**
MET's Institute of Engineering
Department of Information Technology

Thus, the FDP contributed to the attainment of **PO3 and PSO2** by strengthening faculty capabilities in emerging technologies and enabling them to provide industry-oriented and technology-driven learning experiences to students.

The five-day FDP provided an excellent platform for faculty members to gain **updated knowledge and practical exposure to Artificial Intelligence and Industry 5.0**. The knowledge and skills acquired through the program will help participants incorporate emerging technologies into classroom teaching, student projects, research activities, and innovative academic practices.

The successful completion of the FDP was made possible through the valuable support and coordination of the **NITTTR Chandigarh Resource Persons, Department of Information Technology, Local Coordinator, Coordinating Staff, Convener, Co-convener, and all participating faculty members**. The program concluded successfully in an enriching and collaborative learning environment.

Closing Ceremony

The main purpose of the FDP was to **enhance the technical knowledge, teaching capabilities, and industry-oriented skills of faculty members** in the emerging areas of **Industry 5.0 and Artificial Intelligence**. The program aimed to create awareness about the latest technological developments, AI-enabled tools, computational technologies, and emerging industry requirements.

The FDP provided participants with an opportunity to understand the **skills and competencies required for Industry 5.0**, enabling them to incorporate emerging technologies into classroom teaching, laboratory activities, student projects, research, and innovative academic practices.

Another important objective of the FDP was to **bridge the gap between academia and industry** by familiarizing faculty members with current industrial trends, future technologies, and industry-ready skillsets. The knowledge gained through the program can further be transferred to students, helping them develop **problem-solving, computational thinking, programming, innovation, and technology-oriented skills**.
